## The graceful features of the Mediterranean

The Tilcor Antica finish offers the strength and graceful feature of the Mediterranean tile. Its S-tile shape creates superior durability for a lifetime of elegance. Tilcor Antica Tile is available in a variety of colour blends reminiscent of the region, and provides the refined appearance of traditional Mediterranean clay tile without the inherent weight and cost.

Extensive research and development in the design process ensures every Tilcor product is manufactured to the highest quality with exceptional durability and strength. The tile profiles and roofing accessories are engineered to interlock and overlap to resist wind lifting and keep out the harsh elements. At less than 7kg/m<sup>2</sup>, a Tilcor roof is a 'Lightweight Roofing System', so considerable cost savings can be achieved during construction. The perfect replacement for your old existing roof, a Tilcor roof lets you improve the look and value of your home in a matter of days.

All of Tilcor's roofing products are fabricated from Zincalume<sup>®</sup> protected steel. Tilcor's textured finish provides added protection by embedding natural stone granules in an acrylic base-coat. A final clear acrylic over-glaze is applied before being oven cured. This extremely durable UV-resistant coating enables Tilcor roofing products to withstand the harshest environments around the world.

Tilcor is ISO 9001 accredited. International test reports, appraisals and field results confirm our products are 100% waterproof, earthquake safe, fire resistant and able to withstand hurricane-force winds of up to 190kph. A Tilcor roof will not only safeguard your investment but will also give you complete peace of mind because it's backed by a Tilcor warranty.

You will not find a more durable, versatile and attractive roofing product on the world market that will surpass Tilcor's quality and affordability.

**Minimum roof pitch: 12.5 degrees**
