

VIA Rapid Silver Line

ART Stations: COSA COA Submittal for OHP review

June 2026

COA Application – Silver Line

Final Design Request

1. Silver Line Overview
(Corridor, Historic District/Downtown Station Locations)
2. Station Types, Components
3. Historic District *(Business/Neighborhood Assn. Interface)*
4. Station Profiles *(Plan Views, Context Illustrations)*

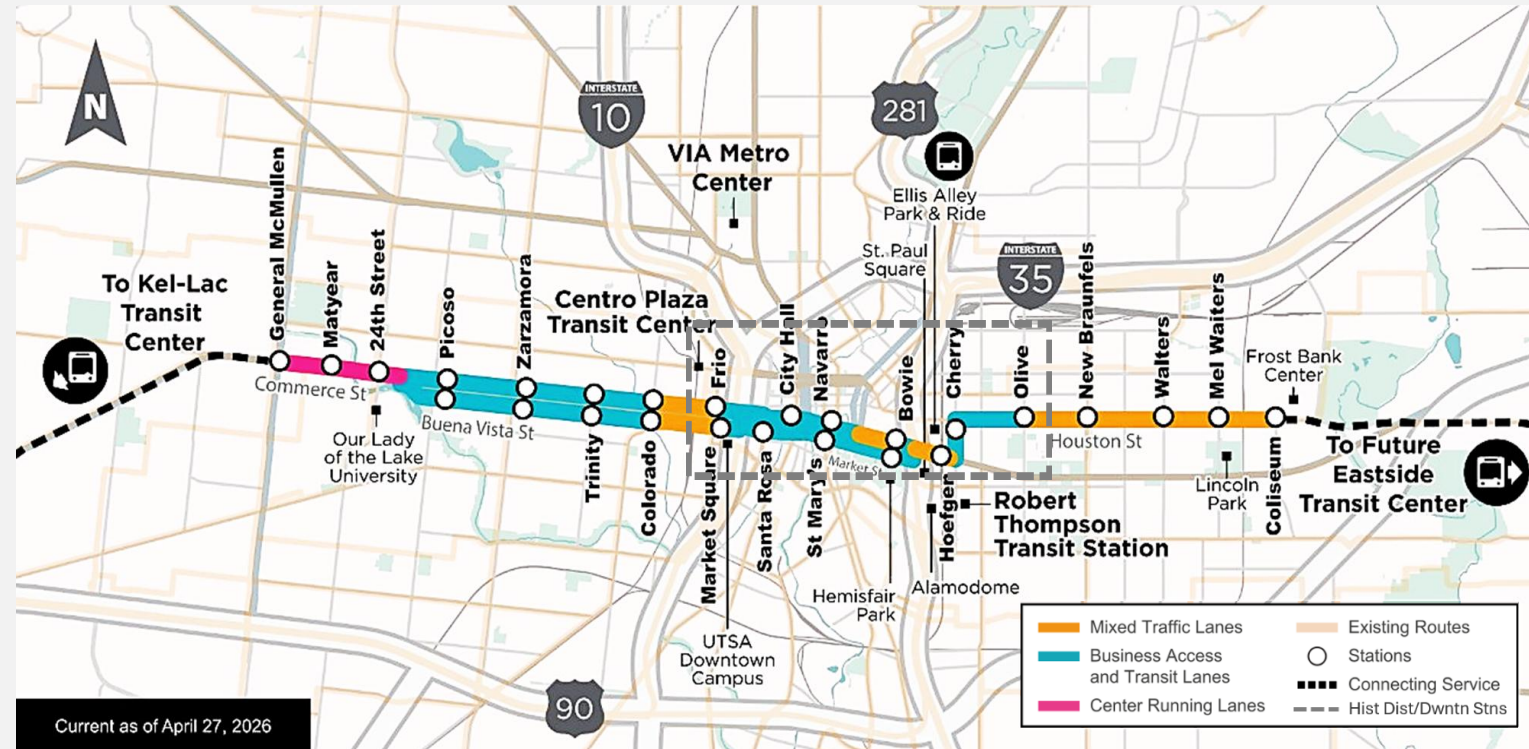

Silver Line Overview

Corridor, Historic District/Downtown Station Locations

Silver Line Corridor Map

- 18 Stations
- 10-min weekday frequency/15-minute weekend frequency
- Construction limits: 7.3 miles long
- Service continues to Kel-Lac Transit Center and Eastside Transit Center
- Center Running, Business Access Transit and Mixed-traffic lanes

Historic District/Downtown Stations

- **Frio/Market Square Station**
 - WB Commerce St @ Frio St (**Cattleman Square HD**)
 - EB Buena Vista St @ S Pecos S - La Trinidad (**Downtown**)
- **City Hall/Santa Rosa Station**
 - WB Commerce St @ Flores St (**Main/Military HD, RIO-7B**)
 - EB Dolorosa St @ Santa Rosa St (**Downtown, RIO-7B**)
- **Navarro/St Mary's Station**
 - WB Commerce St @ St Mary's St (**Downtown, RIO-3**)
 - EB Market St @ Navarro St (**Downtown, RIO-3**)
- **Bowie Station**
 - WB Commerce St @ Bowie St (**Downtown**)
 - EB Market St @ Bowie St (**Downtown**)
- **Hoefgen Station**
 - WB Commerce St @ Hoefgen/Sycamore Sts (**St Paul Square HD**)
 - EB Commerce @ Hoefgen St (**St Paul Square HD**)
- **Cherry Station**
 - WB Houston St @ Cherry St (*not included - outside of downtown*)
 - EB Houston St @ Cherry St (**Dignowity Hill HD**)
- **Olive Station**
 - WB Houston St @ Olive St (**Dignowity Hill HD**)
 - EB Houston St @ Olive St (**Dignowity Hill HD**)

- **Historic District Stations**
- **Downtown Stations**
- **Outside of Downtown**

Station Types, Components

Basic Stations (Downtown Stations)

STATIONS:

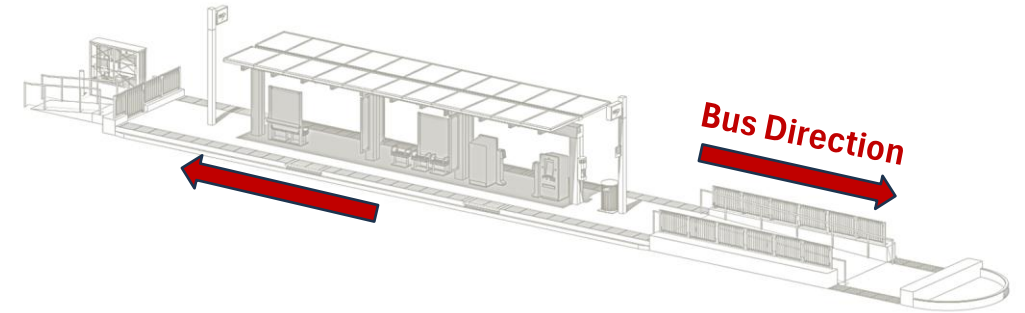

*Market Square/Frio
City Hall/Santa Rosa
Navarro/St Mary's
WB Bowie
Hoefgen*

New Station Platform Types

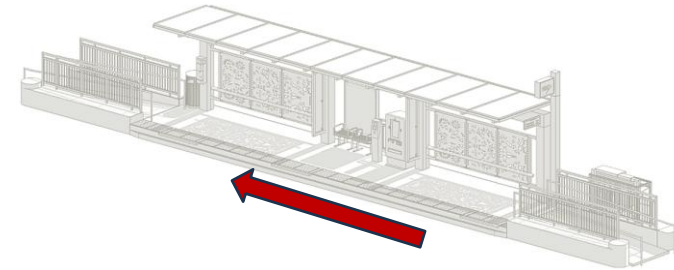

- **Center Station**

- **Single Platform: 2-way bus access (14' wide)**
 - Platform located in middle of roadway
 - Ped Access: 1/2 of roadway from either side of street

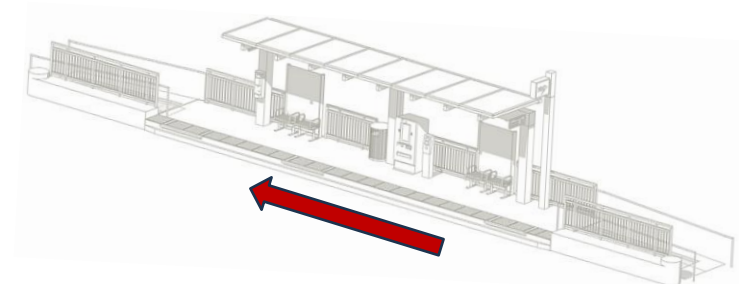

- **Curbside Station**

- **Two Platform Pair (10' wide each)**
 - Platform located on both sides of roadway
 - Access: adjacent to/along sidewalk

- **Curbside Narrow Station**

- **Two Platform Pair (8.5' wide each)**
 - Used in locations where ROW is narrow
 - Platform located on both sides of roadway
 - Access: adjacent to/along sidewalk

New Station Platform Types

Center:
Gen McMullen
Matyear
24th St

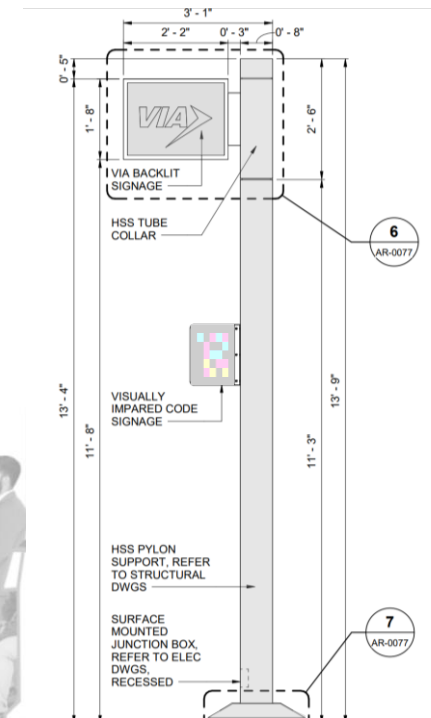

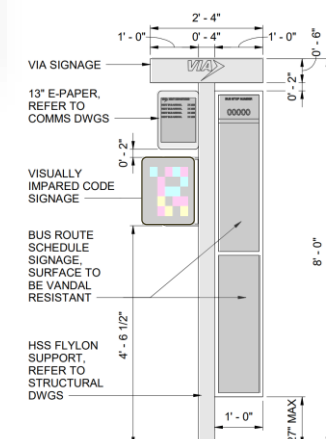

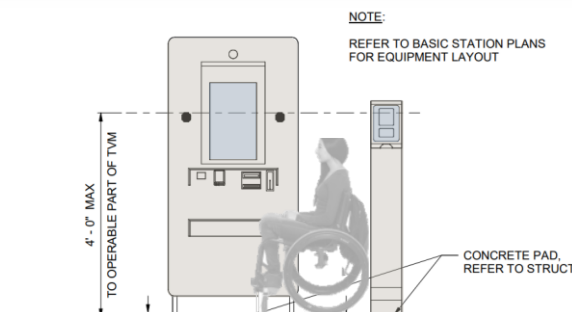

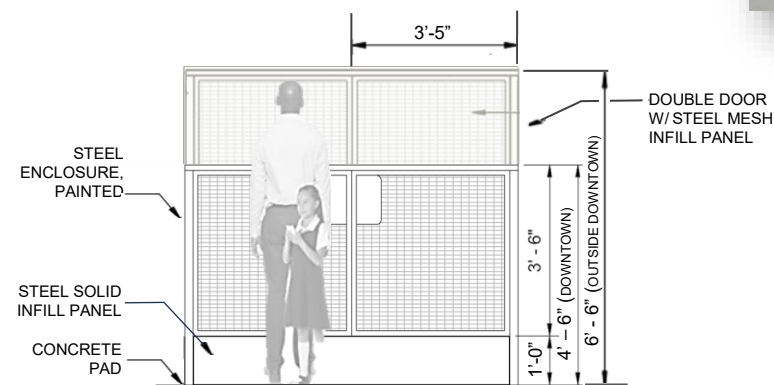

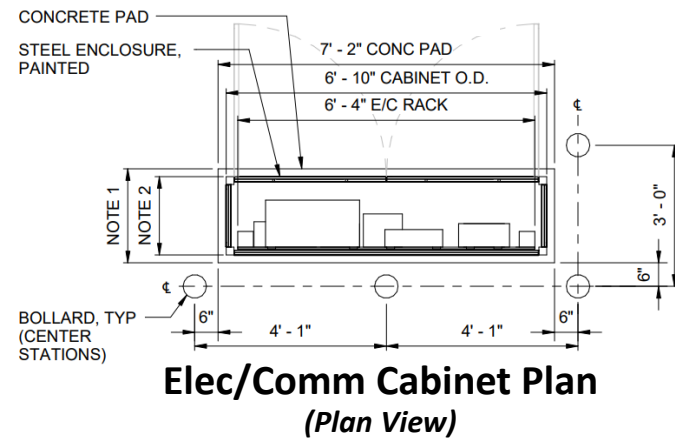

Curbside:
Zarzamora
Trinity
Colorado
EB Bowie
Cherry
New Braunfels
Coliseum

Curbside Narrow:
Picoso
Olive
Walters
Mel Walters

Station Components

Historic District

Business/Neighborhood Association Interface

Historic District Neighborhood Interface

- **Cattleman Square** – Existing transit stop locations, new ticketing infrastructure only
Golden Star owner: December 2024
 - Support for project
 - Concern: new station/infrastructure enhancements might augment general environment degradation by attracting more people
 - *Resolution: revised station type to existing shelter, lesser disruption*
- **Downtown** – Existing transit stop locations; new ticketing infrastructure only
Dry Goods Building owner Weston Urban (@ VIA Information Ctr): April, May 2026
 - Support for project
 - Request: rotate, and move the station equipment closer to the station; collaborate use of building for communication components
 - *Resolution: assessed, but could not move equipment; revised the station design to rotate equipment; collaborated use to eliminate the need for a separate communications box*

Historic District Neighborhood Interface

- **St Paul Square** – April, May 2026: Property/Business owners' association
 - Support for Project
 - Request: Revise EB location to next block
 - *Resolution: Analysis at new location deemed safety requirements precluded move*
 - Request to minimize EB elements, due to commercial business queuing and presence of existing shade elements; maintain 'historic style' VWB shelter and move elements to west to keep business façade uninterrupted
 - *Resolution: EB: relocated comms box across Hoefgen at existing utility box area; removed shelter; revised bench to St. Paul Square aesthetic; moved TVM equipment to align with break in building façades.*
 - VWB: will 'refresh' existing shelter, move TVM/Validator, and work with association on Comms box location*
- **Dignowity Hill** – June 1, 2026: Neighborhood Association board members (+ 6x on Silver Line project)
 - Support for Project
 - Inquiry: Removal of dedicated bus lane assignment potential for service at Cherry/Houston intersection to accommodate future sidewalk width increase
 - Inquiry on canopy height and shade study
 - *Resolution: VIA to transmit info on sidewalk to COSA for consideration of other sidewalk program options; canopy shade explained*
