STATEMENT:

TO: Historic and Design Review Commission, City of San Antonio

RE: Item 19: 1223 S. Alamo Street

Historic District: King William

HDRC Case No.: 2023-191

The Conservation Society of San Antonio opposes granting approval for the fence and artificial turf modifications. Because this applicant has already completed the work despite denial of the request from staff and the Commission, greater oversight is necessary to ensure the additional work in this request is not also completed with disregard to the Historic Design Guidelines.

Respectfully Submitted,

THE CONSERVATION SOCIETY OF SAN ANTONIO

Kathy Krnavek, President
