RE: Confirmation of building evaluation
Proposed building-mounted sign, Sign "A", 421 Market St, San Antonio, TX
FJS Project No.: OFHO-24-003

Dear Ms. Parrish:

The purpose of this letter is to provide confirmation of the analysis of the building structure associated with the project listed above.

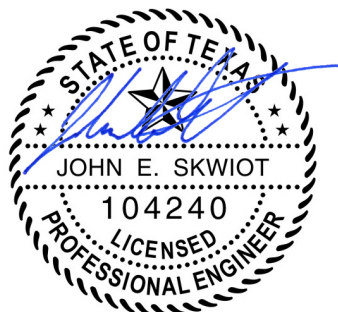

The proposed project consists of the mounting of a 20'-0" x 33'-7" digital sign at the northeast corner of the existing building, to be supported by attachments to the elevator shaft at that location. The building structure has been evaluated in regard to the anticipated design loading and is deemed acceptable for support of the proposed sign.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read 'John Skwiot'.

John Skwiot, P.E.
FJS Engineering
