

Berkley V. & Vincent M. Dawson Park (Hays Street Bridge Park) – Signage

Berkley V. & Vincent M. Dawson Park pays homage to the historic Hays Street Bridge and Dignowity Hill community. The 1.7 acre park includes a historic timeline central to the site, that begins at a Storytelling plaza which houses opportunities for visitors to learn about the bridge/the park/the community.

Signage - the entire site will have interpretive signage throughout. After a few public meetings, surveys and mailers, we feel people were given the opportunity to provide their input. We had a public meeting on January 10th solely to review the signage. We had a few comments on the history sign that were revised. We also made some revisions based on COSA PW/Parks comments.

There are larger signs and smaller blade signs on site. The signs pay homage to Hays St Bridge and the surrounding community. In the center of the site is a timeline walk that has dates that match up with a blade sign depicting that same year.

The plans for this park were previously reviewed/approved through Final and Conceptual Reviews, we were asked to provide this additionally.

New Submission – 1/14/2025

After the HDRC meeting on June 28th, 2024, we have had (2) additional workshop meetings (September 12, 2024 & September 19, 2024) with several members of the community. We have also had (1) Open House meeting (October 23, 2024) for the workshop team and the community to review the final signage to be created. All Sign-In Sheets have been attached to our application. We have revised these signs based on comments received in the HDRC meeting as well as these workshops, open house, and emails/phone calls received separately.

The sign quantity, and sizes have remained the same. The text and imagery have been revised to align with the feedback received from the community stakeholders.
