SINGLE HUNG

Single Hung windows provide a timeless and classical aesthetic. The bottom sash slides vertically and tilts in for easy cleaning from inside the home.

SINGLE SLIDER

Single Sliders have one operable sash that glides horizontally to the left or right for increased ventilation.

Single hung window will be used on first floor only & on second floor when not in bedrooms.

Single Slider window will be used on second floor because of the egress requirement and existing openings. See construction documents 1/A5
