

540 Adams St – Request for Single Car Width Ribbon Style Curb Cut & Driveway

This request is for the installation for a single car width ribbon style driveway for the home at 540 Adams St.

At this point, the property does not have a driveway or curb but along it's main block face of Adams St.

We will be modeling the width of the driveway off the next-door neighbor, and doing a ribbon style to minimize addition of impervious cement cover.

The length will extend up to where the current side fence is located.
